

**PEDERSON BROS. FENDER KITS
INFORMATION NEEDED**

- 1 Is this a lift able / steerable suspension with single tire application? If NO, we do not have the fender kit.
- 2 Who is the manufacturer of this suspension?
- 3 Was it installed at the OEM or is it an aftermarket installed? If OEM, who installed?
- 4 Is it a two bolt or a 4 bolt s-cam bracket? If it is a 4 bolt bracket, get spacing between the bolts.
- 5 Clock Position (front of the tractor is always AM, Back of the tractor is PM (1, 2, 3oclock etc)
- 6 What is the size of the tire?
- 7 Some 20k applications require the model of Alcoa rim, because of the various off sets.
- 8 What material is the fender that is being used?
